Advertisement for two Mathematics Education Positions

Grand Valley State University, an affirmative action equal opportunity institution in Allendale, Michigan, is accepting applications for a position at the rank of assistant professor of mathematics education, with employment to begin in August 2012. The department is especially interested in qualified candidates who can contribute through their teaching, scholarship, and/or service to the diversity and excellence of our academic community.

Qualifications for the position include: Doctorate in mathematics education or related field by August 2012 strongly preferred (ABD candidates will be considered for hire at the instructor level, in which case the Ph.D. must be completed by August 5, 2013); a strong mathematics background; demonstrated effectiveness in undergraduate teaching; evidence of critical, reflective thinking about the teaching and learning of mathematics for teacher preparation; and promise of continued professional growth in teaching and scholarship. Candidates must have strong teaching recommendations, commitment to teaching using demonstrably effective methods of instruction and assessment; demonstrated interest in the preparation of teachers; and research interests in mathematics education.

The department has needs in both pre-service elementary courses and pre-service secondary teacher supervision. For more information, including responsibilities of the position and important details on how to apply, see our position description at

http://www.gvsu.edu/math/mathed12.html

Review will begin November 15, 2011, and continue until the position is filled or the search is closed.
