

University College
Instructors, Assistant Professors, Associate Professors
Department of Mathematics and Statistics
Abu Dhabi and Dubai
January 2013

The University

Zayed University, a premier university in the United Arab Emirates, is an innovative institution based on an international model of higher education. With over 750 faculty and staff serving approximately 7000 students across two main campuses – as well as satellite locations - in Abu Dhabi and Dubai, the University prepares graduates to become leaders in government, business, civil society, and family life. The University expects its graduates to be fully bilingual in English and Arabic, proficient in the use of computing technology, and strong in quantitative and research skills. The language of instruction and administration at the University is English.

Zayed University is fully accredited in the U.A.E. as well as by the Middle States Commission on Higher Education in the U.S.A.

The United Arab Emirates is a progressive country known for its high standard of living and its safe and family-friendly environment.

The Department

The Department of Mathematics and Statistics is one of four departments in University College which offers a high quality foundational liberal education, the Colloquy on Integrated Learning. The experience engenders critical thinking, instills a desire for lifelong learning, and fosters intellectual curiosity. The Colloquy program initiates the baccalaureate careers of all ZU students and has as its goal to build students' understanding of their relation to the world and to equip them to be successful at the University, in their professions and in their personal lives through an integrated, skill-rich, interdisciplinary core curriculum.

The Department of Mathematics and Statistics is responsible for providing learning opportunities through which students develop their quantitative reasoning competency in the general education program. Departmental instruction ensures that students meet the University's standards of Critical Thinking and Quantitative Reasoning, a Zayed University Learning Outcome. We offer a minor in Mathematics and support courses for Mathematics Education and other programs across the University. Faculty teach twelve credit hours per week; they are expected to have a modest pace of engagement with their discipline/profession; and are expected to be active members of the University and College community.

The Opportunity

The Department of Mathematics and Statistics is seeking Instructors, Assistant and Associate Professors of Mathematics, or Mathematics Education who will contribute to the general education level of mathematics and information technology learning. The successful candidate will demonstrate excellence in student-centered teaching. University College is committed to student success and seeks faculty who are committed to ensuring it.

The Requirements

- Minimum degree is a Master's in Mathematics, Mathematics Education, or a related field; a Ph.D. is an asset
- Commitment to innovative quantitative reasoning pedagogies and student-centered learning
- Experience in working with second-language learners or in international contexts is an asset
- Relevant teaching experience and active research interests
- Experience with multi-section university-level mathematics or information technology courses

The Benefits

The University's benefits package is highly attractive; it includes a competitive, income tax-free salary in the United Arab Emirates, housing allowance, medical insurance, and annual vacation ticket.

To Apply

Complete the online application form. In addition, please attach a letter of application, a current CV, the names and contact details of three referees and a Statement of your Philosophy of Teaching and Research Interest.

The review of applications will begin at the beginning of September and will continue until the positions have been filled.
