The Association of Mathematics Teacher Educators (AMTE) Professional Book Series (Volume 6): Building Community to Center Equity and Justice in Mathematics Teacher Education

Edited by Courtney Koestler and Eva Thanheiser
Book Series Editor: Babette M. Benken

This new volume of the **Association of Mathematics Teacher Educators (AMTE) Professional Book Series** provides mathematics teacher educators practical ideas of how to build community to center conversations and action on equity and justice in mathematics teacher education. This **24**-case collection of experiences from mathematics teacher educators (MTEs) expresses how they build community in the following kinds of settings in order to provide examples of how this work can be done in a variety of MTE contexts: *Cases to Build Community with Prospective Teachers*; *Cases to Build Community in Professional Development with Practicing Teachers*; and *Cases to Build Community with Graduate Students and Fellow Mathematics (Teacher) Educators*.

This book is written from and with a critical, practitioner stance and provides a variety of research-based cases (e.g., scenarios, tasks, modules, activities) to support MTEs to build community in mathematics teacher education courses and professional development collaborations. Creating learning communities that center on the joy, beauty, resiliency, and variety of experiences and ways of knowing community members, particularly marginalized communities, is critical to promote agency and action that can support critical conversations that disrupt oppression in mathematics and mathematics teacher education.

ISBN: 978-1-83708-523-1 (Print paperback) ISBN: 978-1-83708-522-4 (Print hardback) Both available now.

ISBN: 978-1-83708-524-8 (EPDF) ISBN 978-1-83708-525-5 (EPUB) Both available for purchase from 20 June 2025.

Discount code: AMTE20 (20% member discount) Pricing: \$115 (hardback) \$67 (paperback and ebooks)

Other books in this series:

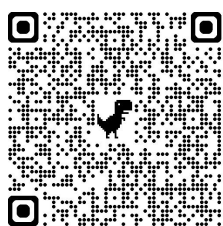

The AMTE Handbook of Mathematics Teacher Education: Reflection on Past, Present and Future—Paving the Way for the Future of Mathematics Teacher Education, Volume 5 (2024) Babette M. Benken

The Mathematics Teacher Education Partnership: The Power of a Networked Improvement Community to Transform Secondary Mathematics Teacher Preparation (2020) W. Gary Martin, Brian R. Lawler, Alyson E. Lischka, and Wendy M. Smith

Building Support for Scholarly Practices in Mathematics Methods (2017) Signe E. Kastberg, Andrew M. Tyminski, Alyson E. Lischka, and Wendy B. Sanchez

Elementary Mathematics Specialists: Developing, Refining, and Examining Programs That Support Mathematics Teaching and Learning (2017) Maggie B. McGatha and Nicole R. Rigelman

Cases for Mathematics Teacher Educators: Facilitating Conversations about Inequities in Mathematics Classrooms (2016) Dorothy Y. White, Sandra Crespo, and Marta Civil
