

Math Professional Development Specialist – To meet growing market needs, ORIGO Education is seeking an expert Learning Services Educator, well-versed in elementary mathematics content and pedagogy, to join our team. Established in 1997 to service a growing demand for professional development in mathematics, ORIGO Education leads the industry with quality professional learning and award-winning innovative math resources for schools, teachers and students. Learning Services Educators work directly with teachers and school/district leaders to plan and implement high-quality mathematics professional learning.

Areas of Responsibility:

- Leading effective implementation of Stepping Stones 2.0 and other ORIGO programs in coordination with account managers and school/district leadership;
- Supporting ongoing professional growth of teachers through the delivery of workshops, provision of classroom coaching, and coordinating with school/district leadership;
- Establishing partnerships with teachers and leaders and using those partnerships to further ORIGO Education’s mission of making learning meaningful, enjoyable and accessible for all learners;
- Staying up-to-date with current research / market trends & using this knowledge to extend ORIGO’s professional learning offerings;
- Identify & communicate future professional learning needs and other opportunities to the sales team; and
- Supporting the sales team with content-driven sales presentations.

Preferred Experience and Expertise:

- At least 5 years’ experience providing professional learning in mathematics, preferably including work at the elementary level
- Master’s degree or higher in a relevant field
- Deep knowledge of elementary mathematics content and pedagogy
- Commitment to ongoing learning
- Excellent communication skills in large and small groups, including the ability to balance expertise with a focus on customer needs
- Flexibility to manage multiple tasks and meet evolving needs of schools and districts
- Comfort with a wide variety of technology tools and environments
- Independent worker with proven organizational skills, attention to detail, and strong time management
- This is a remote position requiring regular overnight travel (up to 75%)

What we offer:

- Competitive salary with opportunities for performance-based bonus
- Full benefits program
- High-profile role in a growing company
- Opportunities for personal and professional growth

Interested candidates should send a cover letter and resume or brief CV to Sara Delano Moore s_moore@origomath.com.
