

The Department of Mathematics within the College of Arts and Sciences at the Ohio State University seeks a Math Learning Center Specialist to join our team. The College of Arts and Sciences is the largest college and the academic heart of the university. The College hosts 81 majors. With 38 departments, 20+ world-class research centers, and more than 2,000 faculty and staff members, students have the unique opportunity to study with the best artists, scholars, and scientists in their field. The College values diversity and offers a supportive, open, and inclusive community.

The Mathematics and Statistics Learning Center(MSLC) Specialist plans, supervises, and develops mathematics materials that enhance student learning in developmental math, quantitative reasoning courses, pre-calculus, and calculus courses, with a focus on courses below calculus; assists in the recruitment and training instructors of (MSLC) programming; oversees the planning, scheduling, and leading of MSLC programming for developmental math, quantitative reasoning courses, pre-calculus and calculus based courses; develops resource and instructional materials, as well as orientation and training materials for mathematics instructors; identifies, promotes, and supports the use of mathematics teaching and learning technologies; encourages communication, innovation, and refinement of instructional practices in the MSLC and mathematics department; works with internal and external partners to identify mathematics and statistics programs that have a proven track record in enhancing student achievement; assists the MSLC staff in evaluating the effectiveness of MSLC services.
